

ELKHORN

Premium Landscape
PLAYGROUND MATERIAL

We are proud to introduce Elkhorn playground material manufactured at Marks Lumber in Clancy, MT. Our playground material is ground to the size recommended by ASTM Standard F2075-10 (Standard Specification for Engineered Wood Fiber for Use as a Playground Safety Surface Under and Around Playground Equipment¹⁾). By using this size of material which interlaces together to make a loose fill surface that gives you the highest impact attenuation for playground surfaces. We grind our material from 100% natural wood, no old pallets, used wood or anything that may contain toxins and/or metals is used in our product. Call for your sample today.

30 Lump Gulch Rd. · Clancy, MT 59634 · www.markslumber.us · phone: (406) 933-5794 · fax: (406) 933-9143
